NOW BETTER THAN EVER

PROGRESSIVE TOP PRIZE

Play On Demand Games today!

Getting started:

Before playing POD Games, be sure you have purchased electronic credits at the sales counter.

- Select **[POD Games]** from the Main Menu screen.
- The POD Games Selection screen will appear. Select your game from the list by touching the icon.

How to play POD Games:

- Once the POD Game has been loaded and you've gone through all of the steps (wager per play, number of cards to play, etc.), choose **[Buy]** to start.
- To learn about the range of wager for a Play On Demand Game (not all games have a wager component) refer to the game's prize chart or Help Screen or ask a Customer Service Representative.

Playing both POD Games and eBingo:
(Note: Not available on designated POD only electronic units.)

You can choose to play **any** POD Game at the same time as eBingo. While playing a POD Game, you can always view your session best card in the bottom right corner of the screen. For half-screen view only games, session play cards will be displayed on the right half of the screen.

- To return to Session Bingo, press the **[Return to Bingo]** button.
- Your POD Game will be paused and you will be returned to Session Bingo when you're only one ball away from a Bingo on your best card, so that you can monitor your cards and prepare for a Bingo.
- Resume POD Game play by selecting the **[Return to Game]** button.
- If you complete the winning pattern, you **MUST** yell out "**Bingo**" to stop the game, and press the **[Bingo]** button. Be sure to yell loud enough so the caller knows the terminal has a winning card.

While playing a POD Game, selecting [Options] from the Session Bingo screen will allow you to do any of the following:

- Click the **[Sound On]** button to turn the sound on or off.
- Select **[Help] located on the bottom left corner of the POD Game screen** to learn more about the game and open up the Help Screen.

REMINDER: If you choose to return to your POD Game when you're one ball away from a Bingo, the system will NOT return you to eBingo a second time. However, you will still be able to view the card closest to reaching a Bingo. If you get a Bingo, select the **[Return to Game]** button to go back to your winning eBingo card. If you complete a winning pattern you **MUST** touch the **[Bingo]** button and yell **BINGO**!

What are Play On Demand Games?
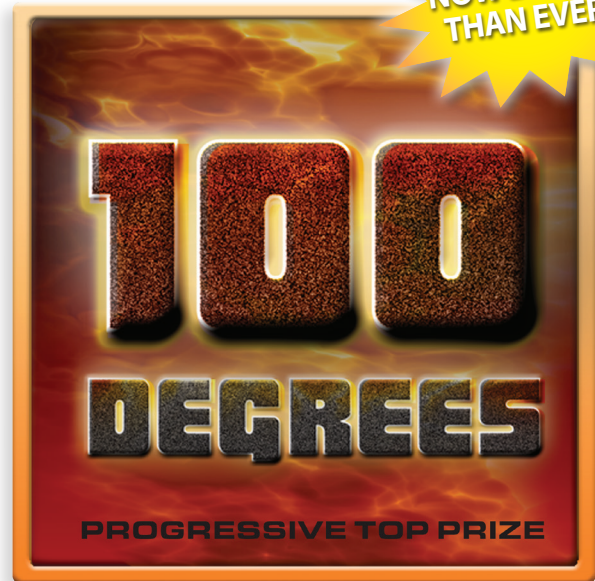

Play On Demand (POD) Games are electronic games you can play independently, in between sessions, at intermission, or even during live Bingo games. They're a fun and easy way to play your games, your way, any time.

100 DEGREES

100 DEGREES is a fun, fast paced game that shares a progressive jackpot with Top Floor (another POD game). This means the value of the jackpot increases with every game played – allowing the jackpot to grow bigger, more quickly. Reach the top of all 6 thermometers to win the progressive jackpot. This game requires a fixed wager of $1 per play.

(**PLEASE NOTE:** This POD Game appears in full-screen view only. This means your eBingo card will be seen in the bottom right corner.)

Buying games:
- From the Session Bingo screen touch the **[POD Games]** button.
- From the POD Menu screen touch the **[100 Degrees]** button.

How to play:
- Touch the numbers on the thermometers to scroll through or change the thermometer numbers.

- Select **[Buy]** to begin the game.
- The numbers will be highlighted on the thermometers – along with the flashboard on the right side of the screen – as they're called (56 balls out of 75 balls are called and matched to the numbers on the thermometers).
- For every "100 Degrees" you get, you win!* Winnings will be displayed in the "Amount Won" box.
- All prizes will automatically be credited to your account located in the "Cash" box (except for prizes of $1,000 or more – you need to see a Customer Service Representative for processing).
- To resume play, touch the **[Buy]** button or touch the numbers on the thermometers to scroll through or change the thermometer numbers.
- Press the **[Exit]** button to end the game and go back to the POD Menu screen.

*PLEASE NOTE: The cash display on the lower section of the screen shows your current balance, which increases with winnings and decreases with purchases.
